**The BIPT delays the possibility for the candidate to bid for the fourth 3G  
licence to the 27th of June 2011, 10 a.m.**

On 15 March 2011 the BIPT launched a call for applications to acquire user rights in the 2,1 GHz band, in accordance with the 3G Royal Decree.

The time limit for applications expired on 29 April 2011. On that date, one application was submitted by NV/SA TELENET TECTEO BIDCO. After analysing the application, the BIPT established that the application was admissible.

Following a request by the candidate, the BIPT has accepted to extend the time limit for NV/SA TELENET TECTEO BIDCO to submit a bid until 27 June 2011, 10 a.m.

The BIPT will notify the 3G licence once the administrative procedure is completely accomplished.
